CAREER OBJECTIVE

Full-Stack Developer with experience in designing and developing dynamic, secure, and high-performing applications. Skilled in translating UI/UX designs into interactive interfaces, building scalable backend services, and ensuring seamless system integration. Passionate about optimizing performance and enhancing user experience.

WORK EXPERIENCE

Grid Dynamics, Chennai   March 2024 - Present

Junior Software Engineer

- **Full-Stack Development:** Developed and maintained a full-stack enterprise application using Angular and Spring Boot Microservices, ensuring seamless integration between frontend and backend.
- **Real-Time Dashboard:** Designed and implemented responsive UI components for the real-time dashboard, enabling users to track sales, team performance, and business growth metrics.
- **API Development & Optimization:** Developed and optimized RESTful APIs for customer & team management, goal setting, and progress tracking, ensuring smooth data flow between services.
- **Security & Access Control:** Implemented authentication, authorization (JWT/OAuth), and role-based access control (RBAC) to manage user permissions across multiple functionalities.
- **Performance & Scalability:** Collaborated with cross-functional teams to debug, troubleshoot, and optimize performance, ensuring high availability and scalability for multi-device access.

Grid Dynamics, Chennai

Trainee Software Engineer   September 2023 - February 2024

- **UI & API Integration:** Assisted in the development of UI components for the business performance dashboard and integrated APIs to display real-time sales and earnings reports.
- **Bug Fixing & Troubleshooting:** Worked on debugging and troubleshooting issues in customer & team management modules, improving data consistency.
- **Microservices & Database Management:** Gained hands-on experience with microservices architecture and database management, optimizing queries for better performance.
- **Agile & Collaboration:** Participated in code reviews, sprint planning, and Agile development workflows, contributing to efficient software delivery.
- **CI/CD & Deployment:** Explored CI/CD pipelines and deployment strategies, ensuring seamless multi-device accessibility across web and mobile platforms.

PROJECTS

FLP360 - Forever Living Products 360
- Translated Figma designs into fully functional, responsive Angular UI components, ensuring a seamless user experience.
- Designed and implemented RESTful APIs using Spring Boot Microservices for data processing, business logic, and seamless frontend-backend integration.
- Enhanced UI performance, API response times, and database queries, ensuring smooth application functionality across web and mobile platforms.

SKILLS

Technologies: Java, Spring boot Micro Services, Python, Angular, SQL, Bootstrap, Tailwind CSS, React JS, Next JS
Certification: AWS Certified Cloud Practitioner, Python Full Stack Developer, QSpiders

EDUCATION

Jansons Institute of Technology, Coimbatore

Bachelor of Engineering, Electronics and Communication Engineering   2018-2022
